Our North Carolina products

HOMEOWNERS INSURANCE

Homeowners insurance is the most important step you can take to protect your home and belongings. A Lighthouse policy offers both property and liability protection.

Property:

We cover loss or damage to your home, additional structures and personal belongings, including from hurricane, fire, lightning, windstorm, hail, explosion, smoke, vandalism, theft and more. We also cover increased living expenses after a loss if your home can't be lived in.

Liability:

Lighthouse policies include personal liability coverage, which compensates for judgments, legal expenses and medical costs when you are found liable for damages or injuries to others when they're visiting your home.

Additional Protections:

Our policies were designed for the unique insurance challenges specific to North Carolina homeowners, but we also offer a variety of options to suit your specific needs. Discuss these options with your agent in order to tailor the best policy for you and your family.

Available homeowner discounts include:

- Age of dwelling
- Claims free
- Companion policy
- Golden age
- New purchase
- Protective device
- Secured community
- Wind mitigation

Additional optional coverages include:

- Personal property replacement cost
- Golf cart (physical damage)
- Special computer
- Other members of household
- Refrigerated personal property
- Lock replacement
- Water backup and sump overflow
- Equipment breakdown

Identity theft and resolution

Additional personal property (jewelry, silverware, etc.)

FLOOD INSURANCE

Flooding is the #1 natural disaster in America and can cause costly catastrophic damage. However, physical damage to your property from flooding is not covered under a standard homeowners, condo, renters or dwelling fire policy and requires separate insurance. Homes located in coastal areas and "high-risk" zones are usually required to carry flood insurance, however 25% of all flood claims are in "low-risk" areas. This policy covers flood damage including overflow of inland and tidal waters, mudflow, erosion along the shoreline and rapid, unusual accumulation or runoff of surface water.
